*Based on a two-hour minimum irradiation. A charge of \$73.47/hour will be added for irradiations beyond 2 hours. A surcharge of \$110.20/hour will be added for irradiations between 9 and 14 hours.

Rush Service: Analyses are routinely completed as quickly as possible after receipt of sample materials. However, from time to time, project workloads can cause delays. We therefore offer a "RUSH" service for a 50% increase in charge, which will move the project to the top of our queue.
