Chapter 6 - Chemical Periodicity

- groups of elements in periodic table
  - eq. alkali metals, IA, A vs B
  - representative elements, etc.
  - d-transition elements
  - inner transition elements
- fundamental particles in ions
- periodic properties and trends - Group A only
  - atomic + ionic radii
  - ionization energy (1st) - know equation + def.
  - electron affinity - know equation + definition.
  - electronegativity - definition
- concept of iso electronic
