8. Use the test for scratch paper.
9. Mark your answers on the test so you can check them with the key when it is posted.
10. ***Turning in a blank scantron results in a grade of zero. ***
11. Turn in both the scantron and the exam, have your ID and your calculator ready to be checked.
12. Work at a steady pace and you will have ample time to finish.
13. The keys will be posted on my class web page as soon as possible. You may check your grade at the class web site. Your password is the middle 5 numbers of your student ID followed by the first letter of your last name in CAPS. Be patient and give the webmaster time to enter all of this information.
